JEAsm

Building Communitysm

Protecting property and saving lives from fire is what we do for a living. Now with the help of “**Community Watch**” we can also do our part to help curb crime as well.

The **Community Watch program** was well received by all the employees at Fire Fighters Equipment Co. This crime prevention program sponsored by JEA and the Justice Coalition was tremendously informative about how to properly observe and report suspicious or criminal activity.

The techniques taught in the class were truly amazing. By utilizing those simple techniques for how and what to observe we saw a vast improvement in our ability to collect and report accurate information to the authorities. Everyone’s skills have been greatly improved.

Thanks to the **Community Watch program**, all of our employees will be on the streets of Jacksonville not only helping protect our customers from fires but also making our community a better and safer place to work and live.

With Personal Regards,

Alex P. Stuckey, Jr.
President – Fire Fighters Equipment Co.

“Community Watch” is a program designed to curb crime by utilizing the eyes and ears of citizens in our community. The backbone of “Community Watch” is the Jacksonville Sheriff’s Office. For information to help make Jacksonville the safest city in America call (904) 783-6312.
