# 2002 — A Year of Change

## Executive's Table

*Executive Director Glenn Ellison*

The Justice Coalition, is looking forward to 2002 with great anticipation. This past year has been one of great change and challenges. I am praying we will continue in the positive direction our President is leading us. For all Americans the tragedy of September 11th will be remembered as a turning point in our history for it has changed our nation forever.

This year will require change in us too. That is, if we want to make our city, state and country better. I am sure that is what most Americans want for our country. Now, we are in a position to demonstrate what we really believe in. We have a President who chooses to follow God's plan for his life and for our country. We, as citizens, need to support our President daily in our prayers. We also need to keep his staff and everyone in the military in our prayers. I truly believe the success of our nation is dependent on how much we are praying for our country. I realize not everyone believes in the one true God and that He answers prayers, but I believe God hears the prayers of a righteous man or woman and responds to our pleas. So, if we who do believe get on our knees and spend

the (the secret word: prayer) necessary time seeking God's will and blessing, we could make a huge difference. Please make a commitment to pray more in 2002.

With all the changes in this past year, we should not think it strange to see change coming in 2002. Change we must, since our growth demands it. As we look forward to 2002, let us look more to God's Book for His direction. We can be sure new changes will provide new opportunities to love one another, even more than we did in the past. Remember, it's God's grace that allows us to endure life's changes gracefully, but also to love others in the midst of it all. No matter what changes the Lord may have in store for us, we can have a joyful, confident expectation concerning our future, that is if we put our trust in Him.

Let's all make the resolution to go out and do something miraculous this year! Some of us will need comfort and encouragement this very year. Some will need our support and empowerment before this year will end. Remember, it's together we can make the most difference.
